

# SISTEMA VENTA DE LICORERIA

**1. Diseño del Login:** donde el usuario digitará su cuenta de usuario e ingresar al sistema

The login form is titled "Iniciar Sesión". It features a large rectangular area on the left with a diagonal 'X' across it. To the right of this area, there are two input fields: "Correo:" with a placeholder "correo@ejemplo.com" and "Contraseña:" with a placeholder "\*\*\*\*\*". Below these fields are two buttons: "Iniciar" and "Cancelar".

**2. Diseño de ventana principal:** se visualizará el interfaz principal del usuario

The main window is a web application interface. It has a header bar with a "Logo" icon and the text "Usuario" on the left, and a "Salir" button on the right. Below the header, there is a "Text area" on the left and a "buscar productos" search bar on the right. The main content area is divided into two sections: "Categorias" on the left, which includes a list of links (Home, Profile, Messages), and a grid of eight product placeholders on the right. Each placeholder is a square with a diagonal 'X' and the word "Detalles" below it.

### 3. Ventana del listado del producto a comprar:
